EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nathaniel Levin on 8/16/2005.

The application has been amended as follows:

In claim 1, line 5 replace "identifying" with "identifying automatically by computer system"

In claim 1, line 8, replace "storing" with "automatically storing"

In claim 1, line 11 replace "replacing" with "automatically replacing"

2. The following is an examiner's statement of reasons for allowance: There exists in the prior art systems such as Lakritz and Parasnis (though Applicant's amendment overcomes the previous rejections), include insert content commands that insert custom content from custom content bundles. However, these systems are designed be used from inception and do not explicitly disclose adapting, or preparing an existing system to include these statements. They do raise the possibility that simply adapting the system is suggested by these references since they teach the benefits of using such a system, however, the specific steps of preparing set forth by the instant invention cannot be suggested without resorting to impermissible hindsight.

Art Unit: 2178

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
